

3-25-75 Tues.

Dear Vickie and Jim,

Thanks for your letters. Dick Hull called you last week and had hoped to stop and see you as he had to go to New York. I think he was there the same time you were. Your night in N.Y. sounded like fun and you certainly are kept busy. The Mr. Kewistons are probably happy about moving back here. Carol will need a mother around if she is going to have another baby.

Saturday night dad and I went to the Harvard Edit and saw a Swedish movie with Liv Ullmann. Afterwards we had dinner at a Russian Restaurant which was across the street.

I have been doing some addressing for Mike and filing the cards. Aunt Stella came up yesterday and helped. Later I walked down to Hoyer service station and picked up dad's car. I didn't have to do that but it is a nice walk going down.

Gary and Patli are back together again and are going to really try to make each other happy. Sandi and Dick went up to the cabin Sunday to check on it after Gary had been there for a month. They plan to go up and stay starting tomorrow for the rest of the week. Sandi said Gary must have had a wonderful time up there with friends. Everything was in terrible condition and

boards had been nailed up at the kitchen windows and the bees come swarming all over the yard. We think Gary lets his friends freely use the cabin also. We are going to put a new lock on the door and tell Gary he can't use the cabin unless Patti is with him.

Dad is still working at Phil Stewart's and he likes being back there altho he is working hard on his computer.

We were over at Mary & Mike's Sunday again. We combined the food we both had so it made dinner easy. It is getting hard to play bridge now as the baby tries to grab the cards.

This time she sat in her high chair and we gave her the jokers and she was happy to chew on them. I get the baby every Friday

and she stays overnight. She  
pulls herself up on the crib now  
so we have lowered the mattress  
and she no longer can sit in the  
bassinett or she could topple over  
very easily.

The furnace man is coming for  
our yearly check so I will hurry  
down to the P.O. and mail this.

The organ is nearing completion.  
I am going to work on it all day  
today.

Love,  
Mom
